Build a Driver Diagram

Play With the Concepts

Directions: take the portion articulated as a theory in the sentence below, and use the pieces of the sentence to begin to build a driver diagram.

If we partner teachers with a colleague or a coach to run PDSA cycles, then we think that site team improvement routines will be strengthened, which will build our network capacity for collective learning and sharing knowledge, which in turn will help us to improve 5th grade math proficiency in the Network.
